lifestyle

Vamos al
consultorio
médico

+ Los Mandatos Formales

- Formal commands are used to address a formal setting.
- Who is the audience? What are some formal relationships that you can think of? Can you think of any formal relationship related to this topic?

POBRECITA ANA

La Señora Ana siempre tiene dolor de cabeza por las mañanas.

Cuando Ana fue al consultorio médico, el doctor escribió 3 instrucciones en un papelito:

1. Tome mas agua
2. Haga ejercicio por al menos 20 minutos al dia
3. Coma comida *saludable*

Affirmative Usted Commands– Formation

- Conjugate to Yo form of Present tense
 - E.g. - Balar ----> bailo
- Drop the 'o'
- bail-
- Add the opposite ending - the 'usted' ending:
 - AR verb you add E
 - ER/IR verb you add A

■ baile

Conjugate the following list on instructions given in a doctor's visit

1. *Abrir* la boca
2. *Respirar* profundamente
3. *Inhalar* por la nariz
4. *Doblar* la rodilla
5. *Toser* fuerte
6. *Estirar* los brazos hacia arriba

Vocabulary list:

Respirar

Inhalar

Doblar

Toser

Estirar

profundamente

any other
instructions given
during a doctor's
visit?

Case study

En grupos de dos,
Crean cuatro
consejos/instrucciones
para Señor Perez

Paciente:

Nombre: Juan Pérez

Edad: 45 años

Motivo de consulta: Fatiga, aumento de peso y malestar general

Historia Clínica:

Juan llega a consulta porque se siente muy cansado, ha subido de peso y se siente mal en general. Su esposa comenta que a menudo no tiene energía y se queja de estar agotado. Juan también come comida rápida como hamburguesas, papas fritas y refrescos, y casi no come frutas ni verduras. Además, pasa muchas horas frente a la pantalla jugando videojuegos y no hace ejercicio.

Evaluación Física:

Juan tiene sobrepeso y su piel parece deshidratada, lo que podría ser por no tomar suficiente agua.

-car -gar -zar verbs

Though these are regular verbs, they undergo a spell change to maintain the origins sound of the syllable. (you may have seen this in some of the negative

Can you think of any verbs that end in either -car, -gar, -zar?

Como cambian? Seguimos los pasos

- Conjugate to Yo form of Present tense
 - E.g. - sacar---> saco
- Drop the 'o'
 - sac-
- Add the opposite ending - the 'usted' ending:
 - Sace (The problem is that this changes the sound of the 'c' to an 's')
 - We solve this by using a ✨ spell change ✨.
 - saque

Car, gar, zar spelling changes

CAR —> QUE

GAR —> GUE

ZAR —> CE

For verbs that end in -zar, the z changes to c when it comes before the letter e

Negative formal commands

The negative formal commands have the same conjugations as the affirmative commands, except that the word no meaning "no" or "not" is added before the verb.

Por ej:

Coma mas verduras

No coma mas verduras

Focus on the words with
arrows. We use them more
frequently

Vamos a pensar en el pandémico.

Can you remember any of the
instructions that we had to
obey during the pandemic?
Was the audience plural or
singular?

Plural Commands

The plural command is neither formal nor informal. It is simply a command to more than one person whether a group of friends or two presidents at a meeting

Plural Commands

Baile Ud.

Bailen Uds.

Coma ahora

Coman ahora!

What do we
observe about
the plural
command?

Plural Commands

Correct! The plural command is formed by simply adding 'n' to the formal command!

NB: Even
the
irregulars!

Let's do all commands all together

Verb	Tu aff	Tu neg	Usted aff	Usted neg	Plural/ustedes
Cuidar					
Descansar					
Prevenir					
Relajarse					
Correr					
Saber					
Ser					

Remember the reflexive verbs?

When forming the reflexive positive command (formal) all rules regarding the reflexive positive command are maintained. In the **usted** command, however, the pronoun for usted is used. I.e. - **SE**

Cuidarse - to take care of one's self

Cuídese - Positive formal command

No se cuide - Negative formal command

Note the
placement of the
reflexive
pronoun!!!

Think again of the pandemic: COVID 19

Can you create instructions for
the public, using the list of
words to the right:

Protéger – To protect

Lavarse – To wash

Cuidar – To care for

Desinfectar – To disinfect

Usar – To use

Evitar – To avoid

Mantener – To maintain

Distancia – Distance

Prevención – Prevention

Salud – Health

Síntomas – Symptoms

Quedarse – To stay

Vacuna – Vaccine

Fortalecer – To strengthen

Respeto – Respect
